

USER GUIDE

Created for 3D printer

Machine Gun Browning cal.50
U.S.A. Machine Gun

ASSEMBLY INSTRUCTION

RC Model printed on 3D printer

Visit our website, www.bastlero.com, to purchase a product you are interested in. Once you've made your purchase, you will receive access to download the file in

Download the files onto an SD card. We have optimized the universal G-code output to work with a wide selection of printers and have tested our products on several printer brands and configurations. If you own a Prusa 3D printer, please use the Prusa G-code files for printing.

Print all of the model parts on your 3D printer. The minimum supported size of the printed surface should be 22x22x20 cm or 20x25x20 cm.

Assemble the model according to the attached PDF manual. For bonding the model parts, we recommend using Super Glue (medium thickness) and Activator.
